

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #100

Library's sorting mode issues

April 19, 2012 01:48 - Artem S. Tashkinov

<b>Status:</b>	Rejected	<b>Start date:</b>	April 19, 2012
<b>Priority:</b>	Minor	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Affects version:</b>	3.2.2		
<b>Description</b>			
1) Library often forgets that I have chosen a certain sort mode			
2) If I've chosen to sort by Artist, then sorting must be done strictly in this order:			
Artist -> Album Name -> Track Number -> Track Name			
Currently it's not always so - see the attached screenshot			

History

#1 - April 19, 2012 15:19 - John Lindgren

It may seem backwards, but what you need to do to accomplish the sort order you want is this: sort the playlist by title, then by track number, then by album, and finally by artist.

- Status changed from New to Rejected

#3 - April 19, 2012 17:23 - Artem S. Tashkinov

What about the fact that Audacious often forgets the last chosen sort mode?

I cannot tell when exactly it happens, probably if you SIGKILL Audacious.

#4 - April 19, 2012 21:52 - John Lindgren

Losing config or data of any sort on SIGKILL is never a bug. SIGKILL means the application is terminated immediately, and it has no chance to save anything. That's why you should almost never use SIGKILL. Use SIGTERM instead; that gives Audacious a chance to save things and exit cleanly.
