<b>Description</b>			
Hi			
I would love to have milkdrop 2 visualization support (like winamp)			
Because milkdrop 2 is now fully open source, this would be possible to add!			
<a href="https://sourceforge.net/projects/milkdrop2/">https://sourceforge.net/projects/milkdrop2/</a>			
Anybody wants to add it?			
Jessica

What? No. MilkDrop 2 requires DirectX, which is closed source and Windows-only.

First warning: stop creating useless tickets without doing your research first. This is not how you get involved in an open-source project. This is how you get yourself banned.
