It's not possible to drop folders/files from dolphin into audacious

KDE Framework: 5.73.0

Kde Apps: 20.08.0

It also happens to me without GTK with winamp cover

+1, doesn't work for me too.

KDE Framework: 5.73.0

QT 5.15.0

Maybe try an older version of KDE?

The only KDE system I have currently is OpenSUSE 15.1 (KDE frameworks 5.55.0 and Qt 5.9.7). Drag-and-drop works fine there. It also works fine with Nemo on an Arch Linux system.

It looks like KDE has fixed this recently:

Does it also work with the old winamp skin? to me in Linux Mint if I don't use GTK version it doesn't work
