Description

I get the following error when trying to play Hutton Orbital (website: https://huttonorbital.com/)

Error playing https://hazel.torontocast.com/hutton:
Server certificate verification failed: issuer is not trusted

I get similar error when trying any of their alternative streams:

https://hazel.torontocast.com/hutton
https://hazel.torontocast.com:1495/cggratpk/3/itunes.pls
https://hazel.torontocast.com:1495/cggratpk/3/realplayer.ram

The above url plays perfectly fine from my web browser or using VLC media player.
