

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #111

HSP file causes segfault

May 12, 2012 23:45 - Hanno Boeck

Status:	Closed	Start date:	May 12, 2012
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	3.2.3		
Affects version:	3.2.2		

Description

I get a crash with the attached HSP file. The source of the HSP file is here:
<http://www.defacto2.net/file/detail/b04a9e>

HSP is an audio format used by the HSC tracker and audacious should in theory support it with the adplug plugin.

History

#1 - May 13, 2012 16:36 - John Lindgren

- Status changed from New to Closed
- Target version set to 3.2.3

The segfault is fixed:

<https://github.com/audacious-media-player/audacious-plugins/commit/46ac472914d46efa9b976c5ea4c3ac19124c9192>

This check of course makes the file fail to play. If it plays fine in other players, there may be another problem that needs fixing.
