Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #1132

Qt Interface loses Album Art setting if closing main window (Wayland specific)

October 31, 2021 23:43 - Michael Schwendt

Status:	Rejected		Start date:	November 01, 2021
Priority:	Minor		Due date:	
Assignee:			% Done:	0%
Category:			Estimated time:	0.00 hour
Target version:				
Affects version:	4.1			

Description

Steps to reproduce:

1. enable Album Art plugin
2. close Audacious window via 'X' button instead of choosing "File > Quit"
3. restart Audacious
4. Album Art plugin is disabled again

Only if quitting the program via "File > Quit", the album art setting is preserved.

History

I can't reproduce this. Could it possibly be related to a particular Qt version?

(Shutting down an application in an orderly fashion seems to be a weak point in Qt, and hard to "get right" for an application as complex as Audacious. We've had issues in the past where our code works fine with one Qt version and/or OS, only to crash on another.)

#2 - November 13, 2021 11:33 - Michael Schwendt

Indeed it's not reproducible with GNOME Shell on Xorg *or* GNOME Classic, but only with GNOME Shell on Wayland.

- Subject changed from Qt Interface loses Album Art setting if closing main window to Qt Interface loses Album Art setting if closing main window (Wayland specific)

#4 - November 13, 2021 16:53 - John Lindgren

I'm going to close this (like #1080 and #1094) because we don't support Wayland yet.

Patches to fix Wayland-specific issues are of course welcome, but I suspect most of the issues need to be fixed in Qt and/or the compositor(s).
