

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #1165

several error messages due bad internet connection on Windows

March 20, 2022 19:58 - Alex .

Status:	Rejected	Start date:	March 20, 2022
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:	win32	Estimated time:	0.00 hour
Target version:			
Affects version:	4.1		
Description			
listing music streams with poor internet connection cause error message spam of pop-ups as soon as the buffer is emptied out			
Audacious opens not one but always five pop-ups all saying "Error playing http://live.nsbradio.co.uk:8904/ : Could not connect to server: An attempt was made to access a socket in a way forbidden by its access permissions." (btw. Audacious played the stream previously but lost connection)			
Expected behaviour:			
-try to reconnect			
-limit error messages to the status bar			
Actual behaviour:			
-five pop-ups opens all saying the same error causing inconvenience			

History

yes, that sounds very similar

how about my suggestion to show error-messages inside the status bar? Would you consider this?

#3 - May 17, 2022 19:21 - John Lindgren

- Status changed from New to Rejected

It's a nice suggestion, thanks. I'll keep it mind.

Closing this as a duplicate.
