Description

I've seen in it other media players and I really like this approach.

Instead of the following buttons:

[ ] Repeat playlist
[ ] Shuffle

We could have a single button with the following states:

[N] Normal, play consecutively
[1] Play one song and stop (so, there's no need to have an extra menu item "No playlist advance")
[∞] Repeat all
[∞1] Repeat one song
[s] Shuffle

If you don't like the idea, never mind. ;-)
