

Audacious - Bug #1197

.mkv files are not added to the library even though they are playable with the FFmpeg plugin

October 25, 2022 10:25 - N Q

Status: Rejected	Start date: October 25, 2022
Priority: Minor	Due date:
Assignee:	% Done: 0%
Category: plugins/search tool	Estimated time: 0.00 hour
Target version:	
Affects version: 4.1	
Description	
.webm and .mp4 files are added to the library but not .mkv files (and possibly other types, I don't know).

- Status changed from New to Rejected

Skipping files without a known file name extension is intentional.

There is a setting to change that behavior if you prefer:

Advanced -> Metadata -> Probe content of files with no recognized file name extension
