Target version:	4.4			
Affects version:	4.3.1			

Description

Alt+I works perfectly from the contextual menu (left click on a selected track) but not with keyboard shortcut Alt+I.

Alt+Q and others keyboard shortcuts works well (ctrl+I, ctrl+U...).

Thanks.

This affects only the French translation in which the menu item "Playlist" is translated with "i" as mnemonic, causing a duplicate action for Alt+I.

I have contacted the French translator on Transifex. Thanks for reporting this.
