Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #126

"POT-Creation-Date" and "PO-Revision-Date" are no more updated by "make update-po"

June 11, 2012 15:20 - Thomas Lange

Status:	Rejected		**Start date:**	June 11, 2012
Priority:	Minor		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	3.3			
Affects version:	3.3			

Description

This has always worked before but at the moment it is really strange:

```
- make update-pot works correctly, "POT-Creation-Date" in audacious.pot gets updated.
 - make update-po doesn't work correctly, neither "POT-Creation-Date" nor "PO-Revision-Date" gets
updated.
```

As example
"POT-Creation-Date: 2012-06-09 17:57-0400\n"
"PO-Revision-Date: 2012-06-09 21:28+0000\n"
are still from the 9th although I executed update-potfiles.sh, make update-pot and make update-po just now.

For audacious-plugins it is different again:
POT-Creation-Date is up-to-date but PO-Revision-Date isn't.

Could this be fixed please?
