

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #132

Float Point Exception when playing some MP3 files

June 20, 2012 16:51 - carlos lopez

Status:	Rejected	Start date:	June 20, 2012
Priority:	Major	Due date:	
Assignee:		% Done:	0%
Category:	plugins/mpg123	Estimated time:	0.00 hour
Target version:			
Affects version:	3.2.1		
Description			
Hello,			
This bug is forwarded from Debian.			
The files causing the FPE on Audacious are available at: http://ftp.neutrino.es/audacious-fpe/			
When you try to load them on audacious (or when the queue tries to read the id3 tags from them) audacious crashes:			
<pre>audacious[6001] trap divide error ip:7f9244401ca2 sp:7f9234e9eb70 error:0 in madplug.so[7f9244400000+4000]</pre>			
The full bug-report is available here: http://bugs.debian.org/666674			

History

#1 - June 20, 2012 16:59 - carlos lopez

Despite the file being corrupted or not, audacious should not crash, but instead just skip to the next song.

#2 - June 20, 2012 17:34 - Michał Lipski

- Status changed from New to Rejected

Unreproducible with 3.2.3 and 3.3-alpha1. I believe this is already fixed in [#89](#). Please upgrade to at least Audacious 3.2.2.

#3 - June 20, 2012 17:39 - carlos lopez

Confirmed.

3.2.3 works

thanks!
