

## Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #188

### Seeking using the GUI is broken in 3.2.4

September 30, 2012 18:59 - Artem S. Tashkinov

<b>Status:</b>	Rejected	<b>Start date:</b>	September 30, 2012
<b>Priority:</b>	Major	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	plugins/gtkui	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Affects version:</b>	3.2.4		
<b>Description</b>			
In previous versions of Audacious you could click any part of the song progress/seek bar and Audacious would jump to this position.			
In 3.2.4 it doesn't work - you have to drag a seek knot to a position you're interested in which is absolutely inconvenient.			
Please, add back the removed functionality.

Which means CentOS users are f\*cked because you removed a workaround for old GTK versions and now we have to use mouse middle click which is also bloody inconvenient.

##### #3 - October 04, 2012 16:40 - Artem S. Tashkinov

What patch should I revert to get the old behavior back?

It's utterly irritating to use the middle mouse button to jump to a new position in a song.

##### #4 - October 04, 2012 17:12 - Artem S. Tashkinov

- File *audacious-3.2.4-scroll\_with\_left\_mouse\_button.patch* added

Here's a patch to make Audacious behave itself again.

##### #5 - March 06, 2015 04:05 - John Lindgren

- Target version deleted (38)
