Description

Is it be possible to add the functionnality "Pause Between Song":

- Where it would be possible to specify the time in second
- With a toggle button to specify pause at the begin or at the end of the song
  Regards

History

Are you thinking of setting this on a per-song basis, or a global setting of "X sec pause between tracks" ?

#2 - October 22, 2012 13:51 - Arnaud de Wavrechin

As a global setting to be able to insert pause between songs of a playlist, either at begin or at the end of each songs.

#3 - November 22, 2012 18:38 - Artem S. Tashkinov

This can already be done using the "song change" plugin.

Command to run toward the end of a song:

audtool playback-pause; sleep N; audtool playback-play

where N is a number of seconds you want to pause for.

P.S. You have to disable Fade in/out plugin for this to work properly.
