

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #236

cannot open file loading external xspf playlist

January 05, 2013 12:33 - Paolo Patruno

Status:	Rejected	Start date:	January 05, 2013
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Affects version:	3.3.3		
Description			
When I load an external generated xspf playlist I get: Cannot open /home/pat1/svn/autoradio/trunk/autoplayer/file:///home/pat1/Musica/PAOLO BENVEGNU'/HERMANN/1 - Il pianeta perfetto.flac: No such file or directory. Cannot open /home/pat1/svn/autoradio/trunk/autoplayer/file:///home/pat1/Musica/1977João GilbertoAmoroso-Brasil12No Tabuleiro Da Baiana.mp3: No such file or directory. I put playlist in validator http://validator.xspf.org/ and I get Result: Valid			

History

- Status changed from New to Rejected

Not a bug. The playlist may be valid XSPF, but the URIs in it are clearly wrong. Somehow you managed to percent-encode the colon in "file:/" so that it became "file%3A/".

#2 - January 05, 2013 17:32 - John Lindgren

Running "sed -i s/file%3A/file:/ autoplayer.xspf" will fix the playlist.
