Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #31

[mp3 @ 0x8f97600] Header missing

January 05, 2012 01:27 - Jacopo Lorenzetti

Status:	Rejected	**Start date:**	January 05, 2012
Priority:	Minor	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Affects version:	3.2-beta1		

Description

Starting the playback of any mp3 stream results in the following errors on the console:

[mp3 0x8f97600] Header missing
[mp3 0x9014300] max_analyze_duration reached
[mp3 0x9014300] Estimating duration from bitrate, this may be inaccurate
[mp3 0x8f97600] Header missing

Then the stream is correctly played but the song title is never updated.

The same doesn't happen with vorbis or aac streams, that are played without errors.

It looks like you are trying to use the ffaudio plugin to play MP3's. We don't really support this; the mpg123 plugin is much better for that purpose. Do you have headers for libmpg123 installed?

#2 - January 05, 2012 05:15 - Jacopo Lorenzetti

you're right, I didn't notice it. this only happens without mpg123.
