<b>Target version:</b>			
<b>Affects version:</b>	3.4-beta2		
<b>Description</b>			
There is bug with playing radio over proxy with authentication. 'Neon' plugin expects "proxy_use_auth" option in config file (neon.c line 530), but there is "use_proxy_auth" option, generated by gui. if i manually add proxy_use_auth=TRUE option to config, it works fine.
