Description			
I propose for an option in the "Status Icon" plugin called "Minimize to Tray" next to the "Close to Tray" option. This way pressing minimize will close Audacious to the tray, matching Winamp's behavior. These options can either be mutually exclusive (Minimize to tray changes the Close button's role to Quit) or inclusive (Both "Minimize" and "Close" do the same job).			

History

- Status changed from New to Rejected

There is no reason to have two options that do the same thing; it would just be confusing.
