

## Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #351

### Audacious hangs while playing files from CIFS volumes

October 01, 2013 14:45 - Marco Squarcina

<b>Description</b>			
Dear all,			
the player becomes unresponsive when I try to move forward the track position slider on a long audio track (e.g. 1h 30') from a CIFS volume. Anyway, the overall performances while playing files from CIFS mounted volumes (on a gigabit link) are really bad. I've found users with similar problems on the web:			
<a href="https://bugs.launchpad.net/ubuntu/+source/audacious/+bug/1130187">https://bugs.launchpad.net/ubuntu/+source/audacious/+bug/1130187</a>			
<a href="https://bugs.launchpad.net/ubuntu/+source/audacious/+bug/1048270">https://bugs.launchpad.net/ubuntu/+source/audacious/+bug/1048270</a>			
<a href="https://bugs.launchpad.net/linuxmint/+bug/1044923">https://bugs.launchpad.net/linuxmint/+bug/1044923</a>			
The mentioned fix of mounting CIFS volumes with the "noserverino" option does not work here. Other players (e.g., vlc) are able to play tracks just fine. I'm using audacious-3.4.1 on gentoo and audacious-3.3.4 on ubuntu and tested the reported issue with different output plugins (i.e. jack, alsa, pulseaudio).			
Thanks for this great player.			
Kind regards, Marco

The output plugin does not matter. What file formats are you playing?

mp3s, like this one: [http://www.newcastlebeats.com/static/mixes/Autonomic/Autonomic\\_Podcast\\_Layer\\_01.mp3](http://www.newcastlebeats.com/static/mixes/Autonomic/Autonomic_Podcast_Layer_01.mp3)

- File use-fuzzy-seek.diff added

Does this patch help?

##### #4 - October 05, 2013 15:44 - Marco Squarcina

Unfortunately, the patch didn't help. After testing several tracks, I noticed that the reported issue does not depend by the file format: audacious hangs even while seeking wav and flac files.

**#5 - October 06, 2013 00:27 - John Lindgren**

Hmm, well, it helped immensely here. Apparently you have a different problem that is specific to your network configuration (but don't ask me how, I'm no networking guru).

**#6 - October 06, 2013 01:49 - John Lindgren**

I've committed that patch. If you have another test case, I'll take a look at it.

**#7 - November 24, 2013 03:44 - John Lindgren**

- *Status changed from New to Rejected*

I'm closing this and [#358](#) since both are unreproducible here and hence probably network configuration problems.
