Add an option to display playlists tabs in multiple rows

November 13, 2013 11:42 - Eugene Romanenko

Status:	Rejected	Start date:	November 13, 2013
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Affects version:			
Description			
Add an option to display playlists tabs in multiple rows. For example, I have many playlists and want to see all tabs without scrolling.

I don't think this is possible in GTK+. However, a vertical list as requested in [#160](#) would be possible.

Oh, little bit shocked about such GTK misfeature...
Vertical list will be good, definitely.

- Status changed from New to Rejected

Closing since [#160](#) is now implemented; you will be able to dock the playlist manager along the side of the interface just like the search tool currently can be docked.
