

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #383

Audacious doesn't open network files if the URL contains special characters

January 01, 2014 17:08 - Bogdan Bezpartochnyy

Status:	Rejected	Start date:	January 01, 2014
Priority:	Major	Due date:	
Assignee:		% Done:	0%
Category:	plugins/neon	Estimated time:	0.00 hour
Target version:			
Affects version:	3.5		
Description			
To reproduce open a network mp3 file which contains some special characters like '[' or ']'. For example file "[01] test.mp3" on a remote HTTP recourse will not be played in Audacious.			
OS: Archlinux latest git version of Audacious

How is this a bug? '[' and ']' are illegal characters in a URL. Have a look at http://en.wikipedia.org/wiki/Percent-encoding#Types_of_URL_characters.

#2 - January 01, 2014 20:33 - John Lindgren

Just to clarify, you need to percent-encode those characters. For example: <http://localhost/%5b01%5d%20test.mp3>.
