**Description**

The filter is not saved at all,
closing the dialog resets the entry.

I have tested Audacious 3.2.4 with GTK2
and this version is fine.

It seems like the behavior changed with GTK3.

**History**

**#1 - March 18, 2014 00:24 - John Lindgren**

This commit is at fault:
https://github.com/audacious-media-player/audacious/commit/c3776fe2c7d55595ffa7dd21c4a98fb5b80a2e1c

The window used to be hidden instead of destroyed when it was closed, so the text entry was not cleared. To fix this, we would have to explicitly save and restore the text entry now. Is it a useful feature? In most cases, I would expect typing a couple of keywords to be faster than editing a previous search. So I'm inclined to just remove the check box.

**#2 - March 18, 2014 00:32 - Thomas Lange**

I'm fine with removing it.
