Target version:				
Affects version:	3.5-beta1			

Description

Hi,

Here are patches for 3.5beta1.

Please apply them to master branch and upload zh_TW.po files to Transifex.

My work in 3.5-alpha1 was overwrote by recent commit.

These patches should recover them and complete zh_TW translation.

Thank you

Hi,

applied, thanks.
But I will not upload your work to Transifex, please do that for yourself.
Then your changes won't get overwritten.
