

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #474

libaudqt: Clean up properly on shutdown

October 29, 2014 00:10 - Thomas Lange

Status:	Closed	Start date:	October 28, 2014
Priority:	Major	Due date:	
Assignee:		% Done:	100%
Category:	libaudqt	Estimated time:	0.00 hour
Target version:	3.6		
Affects version:	3.6		
Description			
Audacious segfaults on shutdown if the "Song Info" dialog was opened before.			
Version: latest from git			
Steps to reproduce: 1. Start Audacious in Qt mode. 2. Open the "Song Info" dialog for a track. 3. Close dialog with "OK". 4. Close Audacious.			
The segfault does not occur every time though. For me usually three tries are enough.			
Output of <i>audacious -VV --qt</i> :			
<pre>audacious: strpool.cc:223: static void String::raw_unref(char*): Assertion `status & MultiHash::Fo und' failed. Aborted (core dumped)</pre>			

History

#1 - October 29, 2014 03:00 - John Lindgren

Fixed the crash:
<https://github.com/audacious-media-player/audacious/commit/024075f987ed20aa9f34c4a19100202fef9765e9>

However, the real problem is that libaudqt is not cleaning itself up properly on exit.

#2 - October 29, 2014 03:01 - John Lindgren

- Subject changed from Qt: Segfault on shutdown to libaudqt: Clean up properly on shutdown
- Priority changed from Critical to Major

#3 - November 01, 2014 15:01 - Thomas Lange

By now a segfault occurs on shutdown if the log inspector dialog was shown before.

#4 - November 02, 2014 19:51 - John Lindgren

- Status changed from New to Closed
- Target version set to 3.6
- % Done changed from 0 to 100

Fixed.
