Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #495

[qtui] Enabling a plugin does not enable its buttons

January 06, 2015 14:10 - Thomas Lange

Status:	Closed		**Start date:**	January 06, 2015
Priority:	Minor		**Due date:**	
Assignee:			**% Done:**	100%
Category:	libaudqt		**Estimated time:**	0.00 hour
Target version:	3.6			
Affects version:	3.6			

Description

Clicking the checkbox does not select a row in the treeview.
Because of this, the buttons "Settings" and "About" are disabled even if the plugin supports them.
If a plugin itself is disabled, the buttons remain sensitive.

Example plugin: Effect/Echo

History

#1 - January 08, 2015 03:48 - John Lindgren

- Status changed from New to Closed

- Target version set to 3.6

- % Done changed from 0 to 100

Fixed.
