<b>Description</b>			
Playing some sample vqf files, they sound really crappy in audacious. They play, but there's an extreme noise.			
This happens for example on this file: <a href="http://samples.mplayerhq.hu/vqf/achterba.vqf">http://samples.mplayerhq.hu/vqf/achterba.vqf</a>			
However, it does not happen on all vqf files, some play just fine, e.g. this sample: <a href="http://samples.mplayerhq.hu/vqf/Action_in_The_Street.vqf">http://samples.mplayerhq.hu/vqf/Action_in_The_Street.vqf</a>

- Target version set to 3.2

It's reproducible. Anyway, both files play fine with Audacious 3.2 (FFmpeg 0.9.1). 3.2 is our latest stable release. Please upgrade to it.
