

## Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #530

### Audacious sometimes crashes without bitmap font

April 12, 2015 05:07 - Sergio Bayona

<b>Status:</b>	Rejected	<b>Start date:</b>	April 12, 2015
<b>Priority:</b>	Minor	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Affects version:</b>	3.6.1		
<b>Description</b>			
Sometimes audacious crash when it has the bitmap font option disactivated, enable this option seems to fix the problem, but i want support for non-ascii characters. This only happen to me in the version 3.6.1, I found this in the log:  audacious: cairo-scaled-font.c:459: _cairo_scaled_glyph_page_destroy: La declaración '!scaled_font->cache_frozen' no se cumple. Abortado ('core' generado)  thanks in advance,

Can you please attach a debugger backtrace?

#### #2 - April 25, 2015 23:14 - Thomas Lange

Installing a few more fonts could help: <https://bbs.archlinux.org/viewtopic.php?id=196614>

#### #3 - April 27, 2015 06:30 - Sergio Bayona

Thanks, I'll try and I'll be commenting if it worked.

#### #4 - April 29, 2015 05:36 - Sergio Bayona

after testing the workaround, audacious has not failed again, thanks for all the help.

#### #5 - April 30, 2015 04:44 - John Lindgren

- Status changed from New to Rejected

Appears to be a Cairo bug since it affects other applications (GParted, xfce4-panel) as well.
