<b>Target version:</b>			
<b>Affects version:</b>			
<b>Description</b>			
Newly installed audacious 3.6.1 on newly installed Win7			
On startup of audacious.exe, two error messages pop up with the same header "audacious.exe - Entry Point Not Found":			
- The procedure entry point <b>uri_to_filename</b> could not be located in the dynamic link library <b>libaudcore.dll</b>			
- The procedure entry point <b>str_unref</b> could not be located in the dynamic link library <b>libaudcore.dll</b>

- Status changed from New to Rejected

Check your installation. Those procedures definitely are in the libaudcore.dll that we ship. Maybe you have a corrupt file.

Not a bug.
