Target version:				
Affects version:	3.6.2			

Description

hi,

description:
playing mono audio file (mp3) using jack audio output plugin does auto-connect only one playback input port. this causes sound comming only from one (left) channel.

expected solution:
playing mono should auto-connect both jack input playback ports, so that sound will come from both channels.

i'm running
Audacious 3.6.1 (Arch Linux)
Linux 4.0.1-1-ARCH
jack 1.9.10

thanks
fous

#1 - June 07, 2015 03:53 - John Lindgren

- Status changed from New to Closed

- Target version set to 64

- % Done changed from 0 to 100

- Affects version 3.6.2 added

Fixed. You can also use the Channel Mixer effect plugin as a workaround.
