Description Here I've been told there's a chance to make a song start at some exact point using cuesheets. The problem is 1.I'm not sure I am able to make it as 2.I'm not sure I have that plugin installed. How do I know if I have it installed? How could I install it? I found some plugin to download at slackbuild to extract somewhere but I don't know in which folder. Is it correct? Maybe better to uninstall audacious and reinstall following your info? Thanks, I really need your help. I cannot find it anywhere.

Please anyone able to make play a song start at minute 00:30.00 ?
How to do this in audacious? the developer told me this function is already in it, that I can do it with the cue sheets.
Anyone knows how to do it?

I really really need this. I don't want to go to back to windows.

Try this (example.cue):

```
FILE "example.mp3" WAVE
  TRACK 01 AUDIO
    TITLE "Track 1"
    INDEX 01 00:30:00
```
