Target version:	3.9		
Affects version:	3.9		
Description			
<p>The window that provides the link to authenticate lastfm is too small and not resizable, which causes the link to be truncated, removing some of it and replacing with ...</p> <p>eg.</p> <p>https://www.last.fm/api/auth?api_key=4b4f73bda1818...438604adf52&token=HM8gm2sV0VRV-QoXjBRIBHleE1Gxoa65</p> <p>This makes it useless. Workaround is to launch from terminal and use link from there</p>
