Category:			**Estimated time:**	0.00 hour
Target version:				
Affects version:	3.8.2			

Description

I just played TAK file with cue playlist. I can only play the first one and then jump to another one. The player threw the message below:
WARNING ffaudio-core.cc:186 [tak]: <0x7f650003f740> TAK codec type 0WARNING ffaudio-core.cc:186 [tak]: <0x7f650003f740> is not implemented. Update your FFmpeg version to the newest one from Git. If the problem still occurs, it means that your file has a feature which has not been implemented.
ERROR ffaudio-core.cc:215 [log_result]: avcodec_send_packet failed: Not yet implemented in FFmpeg, patches welcome

I can play the file with vlc and deadbeef without throwing error, so I think my ffmpeg has nothing wrong.
Here is $ ffmpeg -version
ffmpeg version N-82556-g127cc6d Copyright (c) 2000-2016 the FFmpeg developers
built with gcc 4.9.2 (Debian 4.9.2-10)
configuration:
libavutil   55. 40.100 / 55. 40.100
libavcodec   57. 66.105 / 57. 66.105
libavformat   57. 57.100 / 57. 57.100
libavdevice   57. 2.100 / 57. 2.100
libavfilter   6. 67.100 / 6. 67.100
libswscale   4. 3.101 / 4. 3.101
libswresample   2. 4.100 / 2. 4.100

History

#1 - August 10, 2017 14:40 - John Lindgren

1. Output of audacious -V
2. Example file(s) to reproduce the problem
3. Output of ffplay with the same file(s)

#2 - August 24, 2017 03:28 - John Lindgren

- Status changed from New to Rejected

The error message clearly states this is a problem (or unimplemented feature) in FFmpeg. Closing.
