Opening multiple audio files in Nautilus

December 06, 2017 16:48 - Lukasz Soltykowski

Status:	Rejected	Start date:	December 06, 2017

Target version:			
Affects version:	3.9		
Description			
Whenever I am trying to open multiple files in Nautilus (Ubuntu Artful) only the last one is being played. When I have audacious already opened, I can see all files appearing one after the other in the same position (1st), very quickly being replaced with the next file, until the last one stays and is being played.

Nautilus is running Audacious separately for each file. Not our bug.
