D'oh! Duplicate of 806. Reporter could have avoided the downstream ticket.

Sorry.

- Status changed from New to Rejected

He was probably hoping to get the fix applied to the Fedora package. But 3.10 should be released in 2-3 weeks, so it may not be worth the trouble.

The days when one could release a hot-fix into the Fedora package repositories are long since gone. Nowadays one needs to go through the updates-testing process and possibly even batched updates as to avoid frequent changes to the repo metadata (which are massive!).
