**Description**

I think it would be great if users could **see whether only one song is being repeated or the entire playlist**...

I'm sure this has been discussed billions of times,
my suggestion would be, based on experiences with other apps (I mean, I have seen this before),
that within the loop icon there could be a "1" or an "all" (or a ∞ symbol standing for "infinity" instead of "all") *

- "1" would translate to "repeat + no advance after this song"
- "all" or "∞" would translate to "repeat + advance after this song"*

the icon itself seems spacious enough to accommodate an extra component :)
