**Description**

prefix is set correctly, but never passed down to path defines. This manifests itself as audacious failing to start up under certain conditions, saying it can't find any output plugins because the plugin path is missing the /usr{,/local} at the start.

**History**

**#1 - November 16, 2019 08:15 - Enne Eziarc**

*- File 0002-meson.build-rename-plugindir-to-plugin_dir.patch added*

Ah hang on, there's more.

**#2 - November 16, 2019 17:18 - John Lindgren**

*- Assignee set to Ariadne Conill*

**#3 - November 19, 2019 00:45 - Ariadne Conill**

*- Status changed from New to Closed*

Applied, thanks.
