

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Feature #96

Tree view

April 05, 2012 21:44 - Andrew Dromaretsky

Status:	Rejected	Start date:	April 05, 2012
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	3.3		
Affects version:			
Description			
What about to add another display mode for playlist - tree view? That tree view could be arranged in different ways (folder hierarchy, artist, album, user defined, etc).			

History

#1 - April 08, 2012 16:24 - John Lindgren

- Status changed from New to Rejected

Much as it runs against the grain to say so, you'd be better off looking for this feature in a different player. It would require a database-style playlist structure, not the flat lists that Audacious is designed around.
