

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Feature #98

Add Sndio plugin

April 12, 2012 01:30 - Brad Smith

Status:	Closed	Start date:	April 12, 2012
Priority:	Minor	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	3.3		
Affects version:	3.2		
Description			
Add Sndio plugin. The following diff adds support for the Sndio API used on OpenBSD.			

History

#1 - May 12, 2012 05:52 - Brad Smith

- File 0001-Add-Sndio-plugin.patch added

Here is an updated diff which includes an updated Sndio plugin adding a bunch of bug fixes.

revision 1.5

date: 2012/05/10 22:42:24; author: ratchov; state: Exp; lines: +10 -1
use milliseconds for the buffer size, in the sndio backend

revision 1.4

date: 2012/05/09 20:53:35; author: ratchov; state: Exp; lines: +96 -83
Update the plug-in to the newer 3.x plug-in semantics. Fixes audacious
unpausing by itself as various other bugs caused by using the version
2.x plug-in.

#2 - May 26, 2012 15:18 - Michał Lipski

- Target version deleted (3.2.3)

#3 - June 17, 2012 06:41 - John Lindgren

- Status changed from New to Closed

- Target version set to 3.3

- % Done changed from 0 to 100

I've added the plugin and removed the `written_time()` and `set_written_time()` functions, which are no longer required. I have not had time to get an OpenBSD system running to test on, so please let me know if there are any problems.

Thank you. This in itself is a step forward. It'll be much easier to submit patches against what has been committed even if anything comes up with the code as is with the 3.3 release.
